USB
Connector

Multi-Pin
Connector

Desktop Mount Meter Assembly

Quick Start Guide...

When the contents have been checked please proceed as set out below:

1. Connect the interface cable to the multi-pin connector at the back of the meter.
2. Fit the mounting system if required. See the picture "Desktop Mount Meter Assembly" on page 2.
3. Connect the AES BNC connector to the audio source.
4. Fit the correct power adaptor to the USB power supply.
5. Connect the USB connector the the USB power supply.
6. Connect the USB power supply into a mains outlet and turn on. The meter will illuminate shortly.
7. Update the software with "dkMeterOnline.exe" which can be downloaded at:
   http://download.dk-technologies.com/dkMeterOnline.exe
   Please follow the on-screen instructions.
8. The full user guide can be downloaded at:
